

Meet Your Community Foundation

When was the last time you changed someone's life?

Some people make a difference by giving their time. Others donate money directly to a nonprofit.

We all can change lives in big and small ways every single day.

We're ready to help you:

Mike Goorhouse
President/CEO

What if your giving could make an impact today, tomorrow, and forever?

The Community Foundation of the Holland/Zeeland Area:

- **Builds our Community's Endowment** to ensure there will always be philanthropic resources available for future generations to meet the community's most pressing needs and promising opportunities.
- **Provides services to donors** to help them achieve their charitable goals by making the process of giving easier and more efficient.

For good. For ever.®

Our commitment to endowment enables us to be involved in current and future projects to meet changing needs as they arise. People like you have been investing in our region through the Community Foundation since 1951. There is no other local nonprofit that focuses on endowment like the Community Foundation does. We are uniquely positioned to be both proactive and responsive, funding across a broad range of issue areas.

Give where you live

We build and energize a community of philanthropists, working to make the Holland/Zeeland area a place people want to call home. Our board of trustees is composed of community members that represent the broad diversity of our region. Their knowledge and local expertise helps us best identify needs and better serve our community.
