

Unrestricted Funds and Field of Interest Funds

It takes courage to invest in the future

Unrestricted and Field of Interest dollars are the hardest to ask for. And for some donors, they are the hardest to give. **But in the long run, they hold the most promise.**

This is your gift to the community

Unrestricted and Field of Interest Funds combined make up our Community's Endowment. The Foundation uses these funds to invest in community change across all organizations improving the Holland and Zeeland area. These funds open the possibility that, whatever new challenges or opportunities arise, we'll have the resources to respond with the best solutions. That's why they are one of the most important investments you can make in the community that you call home.

Holland/Zeeland is sure to change; we need to be ready

No other gift has the vision of an unrestricted donation. Our staff and board possess a broad perspective and knowledge of community issues and will always be here to maintain close connections with the nonprofits seeking to address them. Our expertise allows us to award grants that create the greatest impact for Holland/Zeeland. An *Unrestricted Fund* enables you to be part of this work and accomplish more than you could on your own.

Personal passion meets professional expertise

You identify an area that's meaningful to you—whether it's arts and culture, community and economic development, environment, education, health, human services, housing, seniors, or youth. A *Field of Interest Fund* allows you to give a gift to support that special area of interest while still taking advantage of the foundation's community expertise as we make annual distributions from the fund.

We're ready to help you:
